

# Participation

## (e.g. number of users/ visitors/ participants) NBS use

Co benefits of the NBS interventions in CLEVER due to the participatory approach.

### Type of NbS with significant contribution to this impact

#### Characteristics

- Workshops with citizens and different events related with the interventions (for their design, implementation or monitoring).

#### Metrics to be monitored

- Number of participants.
- Satisfaction with the participation.
- Cities Qs and interviews.

#### Tools

- Questionnaires and interviews to focus group.
- QR codes and online tools to increase participation.
- QR Codes in CLEVER Parcours.

#### Insights for the long-term monitoring

Identifying a key community could be relevant to see the evolution of the satisfaction. Periodic activities should be organized to maintain the

community and its engagement for participation. The participation activities should be organized considering the targeted audience.

#### Key messages of the impact

Promoting participation will contribute to create a community. A successful and well-maintained strategy of participation can contribute to the engagement for co-design, con implementation and commitment of the solutions and could have a positive impact on social cohesion and environmental justice.

#### Monitoring Variables

##### Outcome

- Local Participation.
- More visitors to the space.

##### Related KPIs

- Number and type of participants.
- Number of visitors at school events (which are also open to the public) (n [estimated]).
